WHO WE ARE

Ilanga Chem is a dynamic, vibrant, broad-appeal company founded in 2008. We specialise in the manufacturing and distribution of personal care, hair care, home care, industrial care, car care and hospital care products to retailers and customers.

01

AN UNWAVERING PASSION

We love what we do and we take pride in our work and products. In our books failure is not an option.

02

OPEN-MINDEDNESS

We never forget how much we can learn from others. We ask for advice. We seize opportunities and we persevere and above all, we are flexible. We soak up the best practices around us like a sponge. Fear of failure makes it easy to grip onto our vision with an iron fist.

03

THE DESIRE TO BE AN EXPERT

We love challenges. But as exciting as it is to consider a new field, high-achieving entrepreneurs know the benefits of staying in the same industry for a while are immense.

When you spend years in the same industry, you learn its history. Knowing what's been done before can help you identify how it can and should move forward. In the meantime, you'll build a network of relationships to support you in future endeavours, especially when times are lean. Those relationships are invaluable.

06

DESTINED FOR SUCCESS

05

A CONSTANT FLOW OF IDEAS

Having one project that's doing well is great. But the successful entrepreneurs I know don't rest on their laurels. Instead, they're constantly asking themselves, "What's next?" They understand that being a successful entrepreneur is a lifestyle choice, not a destination.

04

A FORWARD-LOOKING APPROACH

We think ahead, we think on our feet. We may stray from our roadmap, and that's okay, but we have only success in mind. Having a clearly established set of goals will keep us from getting stuck. Our goals may be constantly evolving, and we are going one way and that's to the top.

VISION AND MISSION STATEMENT

VISION

To be the leading quality and value manufacturer of Personal, Home, Industrial, Car and Hospital Care products through the creation of highly valued brands.

MISSION

To provide quality and yet affordable cleaning and personal care products. Our strength lies in the price positioning of our product selection and competing strategy.

We want to be highly valued by the customers we serve, the communities in which we operate, our loyal and committed staff and shareholders; to be a company that is driven by growth and innovation.

We believe in strong, fair, mutually-beneficial and long-term partnerships with suppliers. The result is a sustainable and efficient supply chain. This means guaranteed supply for our customers every day.

Reliable suppliers build our confidence to invest in new products. To be a creator of highly valued brands.
